## Hot Times in the Valley

The Open Day at the Steels Creek Tennis Club took a dramatic turn with the 40°+ temperature and the fire up the hill. The Tennis Club was host to more than 100 volunteers and professionals who attended to the FIRE IN OLD SLIDE ROAD 22 January; the Red Cross provided supper for the hard working fire fighters and the club helped where it could. The Leckie's deep dam provided much water for the fire; though the cows did not care for the rotor wash from the helicopters.

Two days of 'maintenance' followed. This fire "number 22" in DSE parlance consumed only one hectare about 3km up the Old Slide Road but required four appliances, a huge D8 dozer and scores of support vehicles. Information and communication are the keys to successful community safety programs. **Story on the development of telephone tree communication links page 7.**

## **BARNEY BITE S AGAIN ! - Snakes, Dogs and other matters ...**

"Do you like Dogs Father Brown?" "Yes, as long as they are not spelt backwards". CK Chesterton

Barney, our black and white short haired Jack Russell cross has done it again, and almost a year to the day. This time it was a 5 foot brown snake with a broken back (but with a still rearing head) that he bought home for us to dispatch on 2 January 2006.

Last year, on 4 January he brought home a similarly sized red-bellied black snake \* that we also had to dispatch. That time he had taken in some venom and spent an anxious ten days at the emergency veterinary clinic at Blackburn. After several doses of anti venom and several blood transfusions he pulled through, better but not wiser.

We took him to the clinic again, but he had not been bitten and was home the next day. We did learn that a black snake's first bite is a warning one with no venom, and that most pet deaths are caused by brown snakes, which are not so considerate.

The quote from Chesterton refers to the fact that all this has cost a lot more than we have put in the Church plate last year.

Andrew Chapman

**The Steels Creek Stitchers** would like to thank all those who supported their recent raffle to raise funds to buy materials for making prizes for this year's Biggest Afternoon Tea raffle. The raffle raised \$311, with the two prizes being won by **Iris Caddy** and **Meryl Collinson**.

## **Yarra Glen Project Steering Committee Survey - Respond by 15 February**

Another group that has been working hard over the festive season is the Yarra Glen Project Steering Committee. The group welcomed two new members to its December meeting (**Damien Crowley** and **Veronica Holland**), and has been busy organizing government grants and business sponsorship to fund the Questionnaire that is to be made available to everyone in the 3775 postcode area.

The Questionnaire has been designed to establish what is important to **you** as a member of the community and asks your opinion on a number of aspects of your community. It is only by getting a strong response from as many members of the community as possible who are willing to give 15 minutes of their time to complete it that the committee will be able to expand the research that has been carried out so far in the quest to find the community values most reflected by a majority of stakeholders.

All members of the community are invited to assist in ensuring that the Questionnaire is accessed and actioned by as many other members of the community as possible. Please talk about it with immediate family members, neighbours, or organizations, friends and acquaintances.

Your thoughts and opinions are as highly valued as those of every other member of the community.

The Questionnaire will be distributed to every household and additional copies will be available at the Newsagency and the Post Office. It can be completed electronically via a website – (the preferred option) or manually, and **must be returned by 15 February**.

## MICROSCOPIC STUDIES OF LIVING ORGANISMS

Wednesdays, Feb 15 – March 8 Twilight sessions 6.00-9.00pm Healesville Living and Learning Centre. We are very fortunate that **Jane and Malcolm Calder** will offer this course again. They lead us on an exciting voyage of discovery - the beautiful, but normally hidden detail within tiny objects.

Stereomicroscopes are very easy and relaxing to use, with two eyepieces and excellent lighting. The magnification allows us to find surprising patterns and textures within common organisms.

The first session will cover the optimal use of the stereomicroscope to examine very small objects and then we will be able to identify pond water plants and animals, various fungi and yeasts and learn about their contribution to a healthy environment. **Bookings: HL&LC on 5962 5982**

### ***Ian de la Rue Award for Community Leadership to Malcolm Calder***

The Shire of Yarra Ranges commemorates Ian's contribution to the Community well being. He was a small businessman with a passionate commitment and advised the Shire on many matters relating to small business. He was a quiet achiever who died 6 months ago.

This first award made to Malcolm Calder is in recognition of his contribution to the community over many years and his involvement in the establishment of the present day vibrant Steels Creek Community, Yarra Glen Art Show and, most recently, the Yarra Glen Values and Vision project.

### **Telephone Tree Communications – 22 households contacted in 10 minutes !**

Recent events have highlighted the necessity for efficient communication. A couple hours easy effort is all it takes to set up a telephone tree. A key person seeks details and maps out blocks and contacts. "The fact that it worked on Sunday was a real bonus. For me, just knowing where everyone was and what their plans were was a positive factor," says Pita Witford of "The Crest." Anyone interested in establishing similar systems for the Brennan and Hargreaves areas should contact Pita at: 9730 1155 [piwhitford@bigpond.com](mailto:piwhitford@bigpond.com)
